DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, drawn to a method of derivatizing a surface.

Group II, claim(s) 14 and 15, drawn to a support.

Group III, claim(s) 17-19, drawn to a method of attaching biopolymers.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. Under PCT Rule 13.2, the expression "special technical features" means those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art. Claim 1 is directed to a method comprising reacting a functional group on a carrier or support with an activating agent and subsequently reacting with an amine component. This feature is disclosed by U.S. Patent 5,624,711 (see Figure 10, glass with -OH functional groups is first reacted with epoxy silanes, i.e. an activating agent, then reacted with an amine component). Since the technical features of claim 1 are taught by the prior art, claim 1 does not contain a "special technical feature".

Art Unit: 1773

Therefore, the claims cannot share the same or corresponding special technical feature (since at least one of the claims lacks any special technical feature) and unity of invention is lacking.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (703) 305-0503.

The examiner can normally be reached on Monday through Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Thibodeau, can be reached on (703) 308-2367. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9310 for non after-final correspondences and (703) 872-9311 for after-final correspondences.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
